AWS Cloud & DevOps Engineer

AWS Cloud and DevOps enthusiast with hands-on experience across EC2, S3, IAM, VPC, and CI/CD automation using Jenkins, Docker, and Terraform. Skilled in Linux administration, shell scripting, and networking, with an added creative edge in UI/UX design. Eager to bring strong technical fundamentals and a design-driven mindset to a high-impact engineering team.

EXPERIENCE

Internship Trainee — Anzee Tech Solutions, Madurai, Tamil Nadu

Jun 2026

- Created and managed AWS EC2 instances, security groups, and S3 buckets for secure object storage.
- Implemented IAM users, groups, roles, and policies; configured VPC subnets, route tables, and gateways.
- Monitored cloud resources using Amazon CloudWatch and assisted in application deployment on AWS.
- Built CI/CD pipelines using Jenkins; managed source code with Git and GitHub.
- Created and managed Docker containers; explored Terraform for Infrastructure as Code and performed Linux administration and shell scripting.
- Performed network troubleshooting, subnetting, and firewall/access-control configuration.

EDUCATION

UI/UX & Graphic Design Certification

IMAGE Creative Education

AWS & DevOps Engineering Certification

Anzee Tech Solutions

B.Com CA (Computer Applications)

The American College, Madurai

AWS re/Start Cloud Practitioner

TNSDC Vetri Nichayam

PROJECTS

AWS 3-Tier Architecture Deployment

Designed and deployed a secure 3-tier architecture using EC2, RDS, ALB, Auto Scaling, and VPC, with network segmentation and monitoring controls.

CI/CD Pipeline Automation

Automated application deployment using GitHub, Jenkins, Docker, and AWS, implementing continuous integration and deployment workflows.

AWS Load Balanced Web Application

Launched multiple EC2 instances, deployed identical applications, configured Elastic Load Balancer, and monitored traffic distribution using CloudWatch.

EV Charging Station Website Design

Designed a 4-page responsive website focusing on usability, clear navigation, and user journey optimization; created wireframes, high-fidelity mockups, and interactive prototypes.

SKILLS

UI/UX Design: Design Systems, Empathy Mapping, Prototyping, Responsive Design, Usability Testing, User Journey Mapping, User Research, Wireframing

Graphic Design: Brand Identity, Color Theory, Layout Design, Social Media Design, Typography, Visual Hierarchy

Tools: Adobe Illustrator, Adobe Photoshop, Canva, Figma

AWS Cloud: EC2, S3, IAM, VPC, RDS, CloudWatch, Route 53, Elastic Load Balancer

DevOps: Git, GitHub, Jenkins, Docker, Terraform, Linux, Shell Scripting

Technical: Python, HTML, CSS (Basics), Analytical Thinking, Problem Solving

Languages: Tamil, English
